NEW DATA PROTECTION REGULATIONS

There are new data protection regulations (GDPR) coming into force in May 2018 which affect all organisations that hold 'Personal Data'.

What constitutes personal data?

Any information related to a natural person or 'Data Subject' that can be used to directly or indirectly identify the person. It can be anything from a name, a photo, an email address, bank details, posts on social networking websites, medical information, or a computer IP address.

The new regulations are designed to improve matters relating to consent to use, rights to view, rights to be forgotten and security of Personal Data.

The following websites contain further information and guidance on GDPR:

<https://ico.org.uk/for-organisations/data-protection-reform/overview-of-the-gdpr/>

<http://www.eugdpr.org/>

The National Albacore Association (NAA) is a Data Controller under these regulations and we have to comply with the requirements of these regulations when they come into force in May 2018.

The NAA holds the following 'Personal Data' for each member:

Full name, title, postal address, telephone number (landline, mobile or both), email addresses, membership number, date joined, grade of membership, details of boats owned.

The NAA acquires and holds members' personal data for the following purposes:

- 1) Postal communication with members including the issue of newsletters, NAA notices, notices from relevant authorities and membership renewal forms.
- 2) Electronic communication with members via e-mail of matters contained in (1).
- 3) To assist with internal administration of membership renewals.
- 4) To maintain historical registers of boats and owners.
- 5) To allow telephone communication with members regarding NAA matters.
- 6) To facilitate member to member communication where appropriate.

The NAA holds this data, in both digital and hard copy formats, with appropriate security to minimise the risk of theft, loss or wider dispersal. The Committee maintains a master membership list which includes all information relating to members. This is controlled by the Membership Secretary and can be accessed by other Committee members as necessary for administration purposes. None of this data is passed to any third party or external data processor.

As a requirement of GDPR, the NAA will undertake a regular audit to ensure Personal Data is only held for as long as required for purposes (1) – (6) above and all copies of old membership lists – electronic or hard copy - held by Committee members other than the Membership Secretary are deleted or destroyed in accordance with our Data Protection Policy.

All members have the right to request from the Membership Secretary a copy of their personal data held, to change or amend it, or to withdraw their consent for it to continue to be held and for it to be erased.

The NAA does not control any Personal Data on social media such as Facebook. Therefore, a member's use of the NAA Facebook page/group is subject to Facebook terms and conditions and is entirely at the member's own choice and discretion.

The NAA requires the positive confirmation of each individual member that we can continue to hold and process your Personal Data for the purposes outlined above. If we do not have your consent, then we are only able to store your name and membership number. This will then prevent us from being able to communicate with you and you will no longer receive any newsletters or emails regarding the NAA and its activities.
